Midterm Activity #4 – Grade Evaluation System

Source Code:

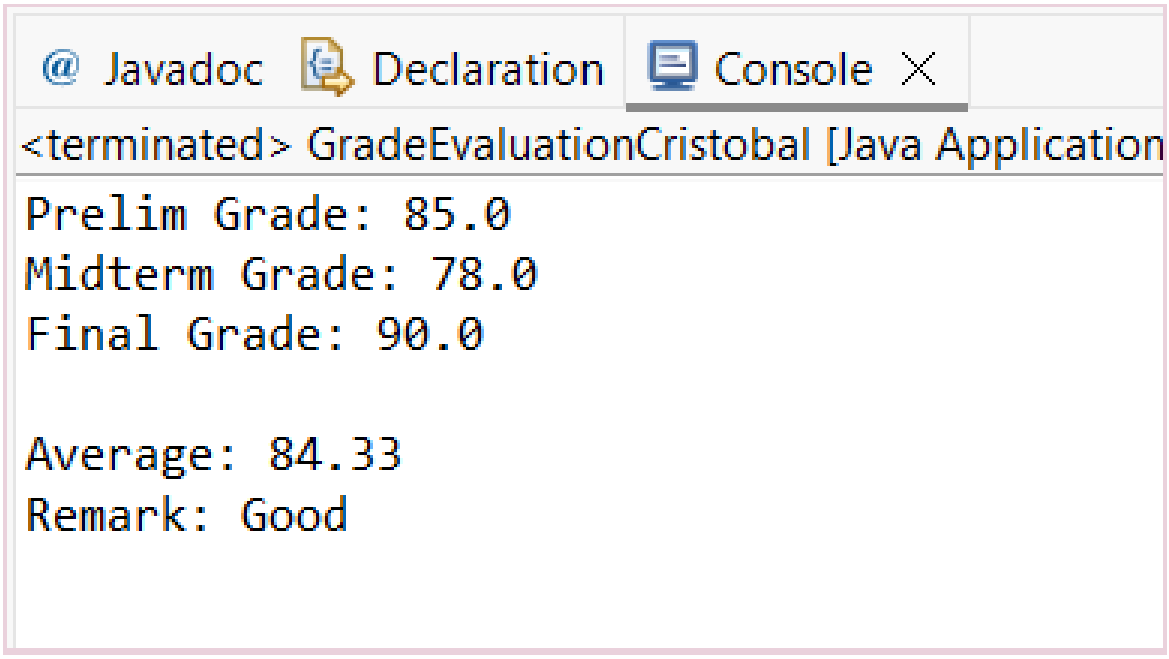

```
package one;
public class GradeEvaluationCristobal{
  public static void main(String[] args){
     double prelim = 85;
     double midterm = 78;
     double finals = 90;

     // compute the average grade
     double average = (prelim + midterm + finals) / 3;

     // determine the Grade Remark using if-else only
     String remark;
     if (average >= 90 && average <= 100){
        remark = "Excellent";
     } else if (average >= 80) {
        remark = "Good";
     } else if (average >= 75) {
        remark = "Fair";
     } else {
        remark = "Failed";
     }

     // display output
     System.out.println("Prelim Grade: " + prelim);
     System.out.println("Midterm Grade: " + midterm);
     System.out.println("Final Grade: " + finals);
     System.out.printf("\nAverage: %.2f\n", average);
     System.out.println("Remark: " + remark);
  }
}
```

Output:

Javadoc
Declaration
Console
<terminated> GradeEvaluationCristobal [Java Application
Prelim Grade: 85.0
Midterm Grade: 78.0
Final Grade: 90.0
Average: 84.33
Remark: Good
